NOTE: The above example recipe is typed with 12 characters per inch, which we prefer. However, you may use 12 or 10 characters per inch.

REMINDER: Type ingredient list in 2 columns to use full width of the bracketed spaces, as shown in the example above. This includes short recipes, like the one above. Also type the recipe directions across the full width of the bracketed space instead of in a column. The reason we ask you to do this is to fit as many recipes on one page for copying the Recipe Book and keep the cost low for the book.

**Please note:** The reverse side **MUST** be printed upside down so that we can easily fold sheet up after judging, to show name during Public Viewing. Please do not pre-fold this page. When printing, please choose to **"print on both sides"** and **"flip on short edge"**. If emailing document back, you do not need to worry about this. Please email to [maribel.branham@ag.tamu.edu](mailto:maribel.branham@ag.tamu.edu).
